<b>Deadline for applications</b>	28th August 2020
<b>international curriculum</b>	n. 3 with scholarship; n. 1 with scholarship reserved for those who have obtained a foreign qualification; n. 1 without scholarship.
<b>industrial curriculum</b>	n. 1 for employees of companies affiliated with the course
Course duration	Three years – <b>with beginning on 1st November 2020</b>
Partner institution	<p>Université d’Artois (Arras, Francia)</p> <p>All PhD students with and without scholarship must spend at least three months abroad at a foreign institution.</p>
Scientific sectors	L-LIN/03; L-LIN/04; L-LIN/07; L-LIN/10; L-LIN/12; M-GGR/02; AGR/01; SPS/09; IUS/13; MAT/05.
Educational aims	<p>The PhD Course in “Euro(pean) Languages and Specialized Terminologies”, in collaboration with Université d’Artois (Arras, France), aims to highlight, from an interdisciplinary perspective, the role played by European languages (English and French) and specialized terminologies in the fields of law and economy, sociology, maths and finance as well as in the agricultural-food sector, with particular reference to the technical vocabulary pertaining to each subject. The development of a language can be evaluated through the evolution of its vocabulary, since the emergence of new realities/concepts entails the creation of new linguistic tools for the study and management of increasingly complex textual typologies. The PhD Course thus fosters a specialized study of European languages, cultures and literatures, with the objective of designing and promoting international linguistic policies through the creation of innovative terminological products in the field of technical and scientific communication.</p> <p>In particular, the PhD Course aims to develop research on foreign languages in a diachronic and synchronic perspective; to produce monolingual and/or multilingual studies in relevant fields of study; to further the knowledge of the application sector and provide the terminological skills necessary to train experts in</p>

	<p>the field. A period abroad is mandatory (minimum number of months: 3).</p>
Coordinator	Prof. Carolina Diglio
Entry requirements	<p>Possession of one of the following qualifications:</p> <p>Any type of “vecchio ordinamento” and “nuovo ordinamento” BA degree or any other Italian Master’s degree (“Laurea Specialistica/Magistrale”) or equivalent academic degree obtained abroad and declared equivalent or recognized as correspondent to the above-mentioned academic qualifications.</p> <p>N.B. the PhD selection process is also open to those who obtain their qualifications by 31 October 2020</p>
