

Agostino Iadicicco was born in Italy in 1974.

He received the electronic engineering degree (cum laude) from the Second University of Naples, Naples, Italy, and the Ph.D. degree in information engineering from the University of Sannio, Benevento, Italy, in 2002 and 2005, respectively.

He is currently an Associate Professor with the Department of Engineering of the University of Naples Parthenope, Italy and serves as the Associate Editor for the IEEE Sensors Journal.

Since 2002, his research activity has been focused on optoelectronics and photonics devices for sensing and communications applications. He is currently involved in the design, realization and testing of novel in-fiber devices in standard and unconventional fibers including polarization maintaining and photonic bandgap fibers. His work in this area encompasses the development of sensors for the measurement of a range of physical, chemical and biological parameters.
